SILVER CENTER CENT SELLS FOR $1.15 MILLION

PNG ACCEPTS COIN DOCTORING DEFINITION

The Market in Depth

Last week's Central States Numismatic Society convention in Schaumburg, IL, had a healthy dealer turnout, but lots of tables spread out over a large floor made the crowd look moderate in size. Heritage hammered over $25 million in their auction, the top lot being a Silver Center Cent of 1792. This pattern, graded PCGS MS61BN sold for $1.15 million to a Beverly Hills wholesaler on behalf of a group of unnamed investors. Coin trading was active, though some dealers expressed concern that business was a bit spongy in the market overall. This is to be expected after having just gone through tax season with, presumably, large bills due, after having experienced a very good last year. The market continues to slowly tighten for important coins that have been cleaned, re-toned or are lower end for their given grades, or are even perceived as being over-graded. At the CSNS convention last week the general membership of the Professional Numismatists Guild (PNG) voted to accept a definition of coin doctoring. Of the 50 who attended the meeting, only one vote against was cast. The definition states, "Coin doctoring refers to the alteration of any portion of a coin, when that process includes any of the following:

1) Movement, addition to, or otherwise altering of metal, so that a coin appears to be in a better state of preservation, or more valuable than it otherwise would be. A few examples are plugging, whizzing, polishing, engraving, "lasering" and adding or removing mint marks.

2) Addition of any substance to a coin so that it appears to be in a better state of preservation or more valuable than it otherwise would be. The use of solvents and/or commercially available dilute acids, such as Jeweluster, by qualified professionals is not considered coin doctoring.

3) Intentional exposure of a coin to any chemicals, substances, or processes which impart toning, such that the coin appears to be in a better state of preservation or more valuable than it otherwise would be. Naturally occurring toning imparted during long-term storage using established/traditional methods, such as coin albums, rolls, flips, or envelopes, does not constitute coin doctoring." PNG members who violate this standard could be subject to suspension or outright expulsion from the organization. "This is a complex issue, but we needed to have a concise definition to help combat the deliberative and unacceptable alteration of coins in an effort to deceive," said PNG President Jeffrey Bernberg.

Beginning May 30, third-party grading services must meet six requirements in order for slabs to be sold as such thru eBay. Currently, only PCGS and NGC graded coins meet the criteria and will be considered "certified" and allowed to include a numeric grade in the title and/or description of the coin. Unless another grading company is in compliance by the deadline, US coins listed with a starting price of $2,500 or more must be in a PCGS or NGC slab. Two of the requirements are that the grading service must have a current online population report and provide online verification of unique slab serial numbers.

This Week's Market

CENTS THRU HALVES: Visible buyers of Kennedy Half Dollars remain plentiful and continue to offer Bid or more for the majority of listed rolls. A lower Silver Spot is the culprit for the declining bullion sensitive issues.

MERCURY DIMES: This segment remained quiet throughout the week, save for a $50 pullback for 1917-D issues in MS65FB. A 1919-D specimen in PCGS MS66FB with CAC approval fetched an astounding $138,000 during Heritage's Platinum Night auction in Chicago.

WALKING LIBERTY HALVES: Those somewhat tough to find 1934-S Walkers in MS65 took a plunge by $450 as a result of weak auction prices realized, but that was the extent of the market's impact on this series. Offers at current Bid continue to stream into this segment for those early-date keys.

DOLLARS: The intrinsic consequence of a lower Silver Spot is yielding moderately lower Bids for a multiplicity of Morgan and Peace Dollars in VG but is having little adverse effect on most of the issues in better grades. Factors relating to reduced demand and over-supply were largely behind the few slight declines posted within the Morgan Dollar segment, as 1891-CC and 1897 issues in MS63 and MS64, respectively, fell a bit. Generic Peace Dollars in MS63 each got a pumping up of $1, however, and most issues in Gem are being well sustained with a steady flow of current offers at Bid.

PROOF SETS AND MINT SETS: Clad Proof Sets from 1999 to 2010 are now Bid higher. Two of the Special Mint Sets are down this week—the 1965 and 1967—as is the 1976 3-Piece Silver Mint Set for the second week in a row.

COMMEMORATIVES: Silver Commems were less vulnerable to the market jitters this time around as they have been in past weeks, but more than a few issues in Gem missed their current Bid targets during this week's trading. Rhode Island Type in MS66 and Robinsons in MS65 were among those posting the most significant declines, while Gem Yorks gave up $20. Activity was sufficient among Gold Commems to at least keep this segment unscathed as Bidders affirmed their interest for acquiring $2½ Pan-Pac issues in XF/AU at current Bid.

TYPE: Recent auctions were sure to have some impact on the Type segment and the results are mixed as Barber Quarters, along with Capped Bust and Barber Halves in MS65, all trickled marginally lower while Liberty Seated Halves in MS63 and MS64 both gained strength, as did Barber Halves in MS64. Slightly higher Bids are being offered for both varieties of Liberty Seated Dollars in VF thru MS60. Some weakness prevailed within the Proof area in terms of altered Bids, as Twenty Cent Pieces and Liberty Seated Halves With Motto in PR64 fell by $200 and $100, respectively.

GOLD: Despite the flurry of minus signs pervading the Gold Type columns, the scarcity of $2½ Libs in MS67, and especially $5 Indians in MS65 appear more appreciated by Bidders as the latter jumped by $900 this week, but are still $1,150 below their Bid from a year ago.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight-seen The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a sight-seen "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels INVESTOR/COLLECTOR NOTE. The prices in this newsletter are from Dealer-to-Dealer transactions you should expect to pay a premium over Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases

"Eye appeal is everything.
And when a coin is in a holder, the holder is part of the eye appeal."

Greg Rohan, *President, Heritage Auctions*

"The Scratch-Resistant Holders from NGC are optically superior
to any holder out there. I think everyone should get their collection reholdered in them—and certainly before bringing it to market!"

John Albanese, *Numismatic Expert*

"I had a classic rarity—
a million-dollar coin or better—
reholdered by NGC, and the difference is incredible.
I even got a WOW from a top expert in the field."

Adam Crum, *VP, Monaco Rare Coins*

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $5.00 Vol. L No. 18 **May 4, 2012** *...a Friday morning report on the Coin Market*

HIGH-END RARITIES IN DEMAND
CAC LIKES IKES

The Market in Depth

Various strata in the coin market are ranging from spongy to competitive. Coin issues that are generally found everywhere, such as common date Morgan and Peace Dollars, Walking Liberty Half Dollars, and even $20 Saint-Gaudens are currently suffering from a malaise in the market. They are "ho-hum" coins in the eyes of many because they are found on the bourse at every coin show, are frequently seen in ads, and are readily available from coin shops. Lifelong collectors generally have this material already, and if they are building sets, are looking to buy those scarce issues that turn up infrequently. Rare dates in these same series are another issue altogether and are sought after when they come to market. However, these same issues that are looked at as substandard for their grades are being left on the table, and that goes for coins of all strata. Coins that are perceived as being over-graded and/or plagued by problems are lying in wait for bargain hunters or unwitting buyers to take them home while their prices continue to soften. CAC and Plus grading are continuing to have a dramatic effect on the prices for such pieces.

On the other end, there are experienced collectors who will pay astounding prices for exquisitely toned coins, like early Commemoratives and Silver Dollars, for example. Prices paid that are ten to fifty or one hundred times the value of same grade coins without such toning is not unheard of. Rumors have been surfacing that owners of some of the multi-million dollar trophy rarities have received exceptionally high offers for their coins. Some expect this area of the market to reach values of unimaginable levels if a sale over the $10 million mark for a single coin is achieved. The high end of the fine art market is often used as a comparison to trophy coins, as some paintings have now sold for more than $100 million. Obviously the art market is much larger than the coin market, so that level is not expected to be reached by rare coins any time soon, but certainly some coin dealers and investors see the $10 to $20 million dollar level, and maybe even a little higher, in the future for some very rare coins.

Ebay has launched an effort to become more involved in the coin market. It is seeking more visibility of coins in its auction sales by attending major shows and partnering with the PNG. Ebay is also forging strengthened relationships with the major coin grading services and is featuring higher end coins in some of its sales and beginning to promote those sales within the hobby. Specialty sales of rare coins will also become more frequent.

May 3-6 is slated for the EAC Convention and sale in Buffalo, NY. ANA's National Money Show will be held from May 10-12 in Denver, CO. Ira and Larry Goldberg will hold a pre-Long Beach auction May 27-30 featuring selections from Bellisima, Cahn, Holmes, Shapiro, and Forsythe collections. Then it's the Long Beach Expo May 31-June 2 with a sale by Heritage.

This Week's Market

MERCURY DIMES: Auction results didn't bode well for some early Mercs, and Bid reductions are in place for 1917-S in MS64FB, 1920-D in MS65, as well as for 1926 and 1931-D issues in MS65FB. Two examples of 1930 PCGS MS65FB Mercs sold at auction for $374 and $207, the former with a CAC sticker while the latter had a Dominick pedigree.

WALKING LIBERTY HALVES: Just a few war-time Gem Walkers fell moderately short of maintaining their Bids from last week, namely the 1939-D, 1942-S, and 1944-S. Several early-dates are still eliciting current offers at Bid clear across the Mint State grade range.

DOLLARS: It was all about the better-date Morgan and Peace Dollars this week as a predominance of slightly lower Bids resulted from less than enthusiastic trading. 1889-CC Morgans in VG-Fine, and 1893-S Dollars in the latter grade were among the few exceptions, as these always sought-after cartwheels are again defying the odds of a segment burdened by persistent downward pressure. Among the Peace Dollars drifting lower were those tough to find D-Mint issues from 1927 and 1934, both in MS65. Unc Clad Eisenhower Dollars are needed at higher levels with at least one dealer willing to take up to a bag of each from '71-'72, this on the heels that CAC is now stickering business strike Ikes.

PROOF SETS AND MINT SETS: Strong demand remains for 1994-1998 green Proof Sets with one dealer needing 700 of each. Bids for Silver Proof Sets are falling as Spot hangs near $31 an ounce. Mint Sets are showing two declines, the 1986 and 2010.

COMMEMORATIVES: Silver Commems are floundering again, and some issues that have always been held in high esteem by enthusiasts have plunged by almost unimaginable proportions. In the MS65 column, California issues took a 16% dive, while Missouri 2X4 and Monroe Halves each fell by 12%. Slight gains were scored by Roanoke issues in AU thru MS65. Gold issues remain stable save for 1903 Jefferson Dollars being forced back down to Bid at $875.

TYPE: Both gainers and losers shared the field for the Type market, and gainers weighed in especially well among various denominations of Flowing Hair and Draped Bust material in VF. Half Dollars of the former and Dollars of the latter variety with Large Eagle reverses in this grade are both up by 16%. Twenty Cent Pieces in MS64 and Barber Quarters in MS63-MS64 faltered just a bit along with Type II Standing Liberty Quarters in MS65FH. Proof material was far less volatile, as Liberty Seated Half Dimes with Legend and Barber Halves, both in PR63, went in opposite directions with the latter advancing up to an even $1,000.

GOLD: Most large denomination are posting modest advances to offset some of last week's declines while many fractional issues are still bogged down by the weight of uncertainty. Complete sets of NGC $2½ Indians are being offered in AU58 for $10,000, MS61 for $13,500 and MS62 for $18,000.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be promptly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE. The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

QUALITY COINS SHINE, OTHERS DECLINE

SPRING DENVER ANA UNDER WAY

The Market in Depth

This week, dealers who travel the national show circuit are in Denver for the ANA National Money Show. It's an easy city to fly and drive to for dealers and collectors from the western half of the country and it's a major "club" convention, so that adds to the draw for this show. Active dealers from the eastern half of the country and advanced collectors from the same area, will undoubtedly attend as well, as there will be meetings and interesting seminars to partake in. Both dealers and collectors are searching for quality material that is original and problem-free, while all the other coins with any hint of a distraction are being ignored and left unsold in their cases. While trading activity in advanced numismatics continues on a relatively vibrant note, a malaise in demand for average coins carries on. Shop, mail order, and show dealers hope the situation will improve once employment and the economy strengthen. Collectors of modern material appear to be more active than those who are buying Circulated coins for their sets. Thousands of collectors are buying high-grade modern material, many of which have been encapsulated by third-party grading services. This is becoming a more important area for collectors that is maturing and showing signs of permanency, rather than just a fad.

Precious metals have softened more this week, with Silver taking the biggest hit by dipping to December levels of below $30. This has been a three month slide for Silver, since reaching higher than $37 during February, after climbing from the mid-$20s in late December. Gold has been a bit more stable, but also has been in a three month downward trend to the low $1,600s, after spending late January and all of February over the $1,700 mark, reaching nearly $1,800 during late February. Platinum dipped below $1,400 in December, then edged over $1,700 in February, only to drift to the low $1,500s this week. On the other hand, Palladium has been bouncing between the low $600s and the low $700s this spring.

Stack's Bowers will hold a promotion offering free expedited grading by PCGS for those who consign qualifying coins to the August ANA World's Fair of Money auction. This special grading event will be held at the Spectrum Group International headquarters in Irvine, CA May 16-18. Those in attendance will also have an opportunity to tour the Spectrum Group office or the PCGS grading facility. In addition, participants consigning 10 coins or $10,000 worth to the sale are also invited to the Charlie Palmer restaurant for an evening of fine dining. Brisk trading reportedly took place at the EAC convention, held in Buffalo May 3-6. Their Saturday night sale, on May 5, realized $400K and included a two-way tie in the race to the top lot, both of which are raw Draped Bust Large Cents—an 1802, graded VF25 and a 1798, graded MS60; each coin was hammered at $15,400.

This Week's Market

CENTS THRU HALVES: BU Kennedy Halves take the limelight as several dealers spar with one another raising Bids on many dates spanning from 1979 to present.

MERCURY DIMES: After last week's rather tough outcome, all Mercury Dimes are taking a rest from the anxieties of market uncertainty. Better-date Mercs with or without Full Bands continue to be among the collector favorites in on-line auctions.

WALKING LIBERTY HALVES: Walkers were fairly peaceful as well, with only 1944-D issues in Gem swaggering a bit and pulling back by $5. Offers still abound for many Mint State issues within this segment, but not with sufficient intensity and enthusiasm to lure them beyond their current Bid levels.

DOLLARS: A multitude of Morgan and Peace Dollars in VG and Fine, both generics and better-dates, are following Silver Spot to slightly lower ground. However, market-makers are in greater need of 1879-CC Capped Die Dollars in the latter grade, thus Bidding $10 more for them. An attractive and highly elusive 1883-S Morgan in NGC MS62DPL, one of only two graded as such with two finer from a combined pop of just nine specimens known across all grades, is up for grabs during the Goldberg Pre-Long Beach auction at the end of this month. Bidding activity for Peace Dollars is slackening off somewhat, and 1922-D Dollars in MS66 are losing steam amidst the market slowness.

PROOF SETS AND MINT SETS: Bids for 2008 thru 2010 Clad Quarter Proof Sets are up with a buyer looking to take 100 of the 2008 sets for $26 per. A couple of the Special Mint Sets and the 1976-S 3-Piece Silver Mint Sets have dropped as supplies are available.

COMMEMORATIVES: Some negativity persisted in pushing down a couple more Silver Commems, as Maine Halves in MS64 shaved off $5, while Robinson-Arkansas examples in XF thru MS63 appear disinclined to partake in what may be a long awaited reprieve from the frenzied discount trading that has been absorbing this segment these past several weeks.

TYPE: Bidders appear to be acquiring an increased appetite for early Copper-Nickel Indian Cents in XF/AU, and for Liberty Seated Halves of both the Arrows & Rays and Arrows in Circ. Barber Dimes and Halves in PR60 are also getting more appealing, as Bidders are now willing to fork over $60 more for the latter issues. The Goldberg's Pre-Long Beach auction will feature an extensive selection of Large Cents from the Northwest Collection, as well as examples of some of the rarest and finest known Hawaiian coinage specimens, and several exceptional quality Proof Barber Quarters and Half Dollars, many of which have Cam and DCam/UCam designations with CAC approval.

GOLD: Gold Spot and commodity prices in general have been dipping this week, raising concerns over deflation and an extended recession throughout many parts of the world, and much of the generic Gold Type material is reacting to prospects for lower demand due to continuing economic uncertainty. $5 Libs with Motto and Indians in MS65 are among the few issues defying the odds of a downward trend.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series some of the rolls in the late 50's tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

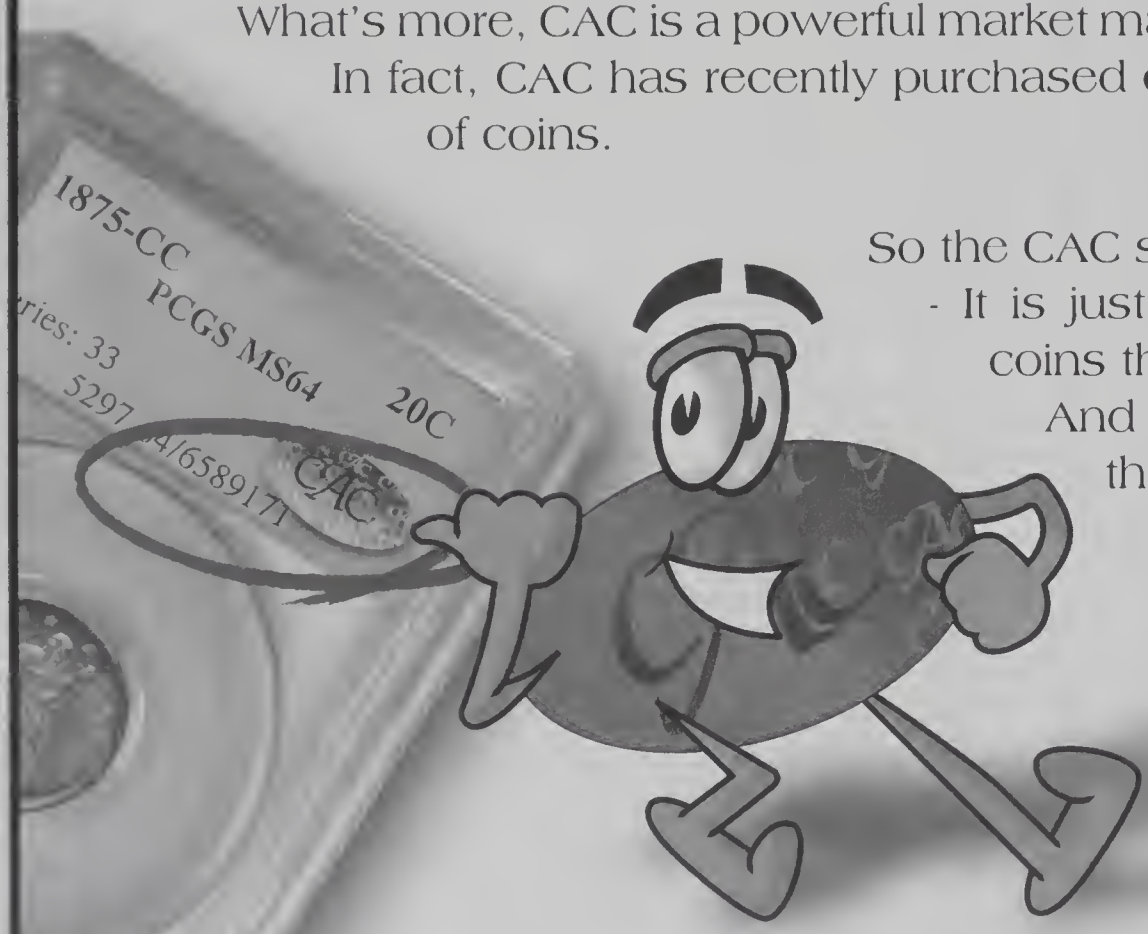
UPDATE!



CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ~~250,000~~ 350,000 coins with a market value over ~~$1.3~~ $1.7 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over ~~$200,000,000~~ $250,000,000 worth of coins.

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

The CAC sticker doesn't add value, it just helps to identify a quality coin.

PRECIOUS METALS FALTER
DENVER BEATS EXPECTATIONS

The Market in Depth

The major news of the past week affecting the coin business is the fall in precious metal prices. This began the previous week and continued through the duration of the ANA's National Money Show in Denver. And the steep dive in prices continued during the beginning of this week as well. Known for its volatility, Silver was especially hard hit, plunging from the mid-$30s in March to where it is now, near $28 an ounce. After reaching nearly $1,800 in March, Gold has plunged to the mid-$1,500s. Platinum, which has been somewhat on parity with Gold, has softened from the low $1,700s in March to the mid-$1,400s, and Palladium has made a steep decline from the high $600s at the end of April, falling below $600 earlier this week. Coin dealers are hoping this fall in precious metal prices will bring an increase in customers, both buying and selling. Meanwhile, the European debt crisis continues to build with some calling for "not if" but "when" Greece defaults on its obligations. Other countries, such as Spain, Portugal, Italy and Ireland are experiencing high unemployment rates and troubling economies. The populace is revolting against austerity measures, as evidenced by the recent election turnover in power in France and Greece, so many experts believe it's just a matter of time before inflationary forces push the metal prices higher. While the general public seems blind to this same scenario taking place in the powerful economy of the U.S., at least some politicians and business leaders are trying to sound a warning that we're headed for similar troubles. Nobody wants to lower their living standards through austerity, so traditional Gold Bugs are still expecting precious metal prices to propel to heights never seen before.

Last week in Denver at the ANA National Money show there was no major auction and no on-site grading from PCGS or NGC, an unusual circumstance for a major show these days. Trading was therefore focused on the bourse floor where much of the activity took place in dealer-to-dealer trading. Retail traffic was relatively strong too, with many locals in attendance intent on either buying or selling. Reports have been circulating that some dealers have been having shows reminiscent of the slow nineties when it comes to collector sales – at least for middle of the road material. This is a time when dealers must be nimble on their feet as to what kinds of coins they are buying for inventory and how much they are paying. Hitting the right price points for marginal material to turn it over in a reasonable amount of time is key to success in this type of market – which some are calling somewhat weak for coins that are neither fresh nor especially sought after in terms of scarcity. Ira and Larry Goldberg will hold a Pre-Long Beach auction May 27-30 in Los Angeles as is Bonhams on May 27. Long Beach is the next destination for dealers and collectors who will attend the expo and auction May 31 to June 2. In addition to the return of the sports card section, the bourse will open two hours earlier for dealer set-up, now beginning at noon on Wednesday.

This Week's Market

MERCURY DIMES: Movement among the Mercs this week was minimal but positive as 1943 and 1943-D in MS65FB gained from higher dealer Bids, and their MS65 S-Mint peers from this issue year showed muscle as well.

WALKING LIBERTY HALVES: Late-date Gem Walkers are still quite susceptible to discounting, but every now and then, a few spring back to recover losses sustained in prior weeks, as is the case for the 1942, 1942-S, and 1943.

DOLLARS: Significantly lower Silver Spot arguably played a role in the widely denoted reductions posted among Circulated Dollars of both the Morgan and Peace series this week. However, the intrinsic force of this pull-back had no adverse effect at all on either the common or better-date issues in Mint State grades.1881-CC Dollars in MS63 are continuing to recover their losses from earlier this month and 1886-O issues in MS64 made a healthy gain, as did two issues in MS65 – the 1886-S and 1891-S, with the latter issues' peers in MS66 and MS67 forging ahead by $450 and $500, respectively. Other than the 1922-D in MS65 and the 1925-S in MS63, Peace Dollars didn't reveal as much overall stamina as the generic issues in Gem receded to $140 Bid.

PROOF SETS AND MINT SETS: 1964 thru 2009 Silver Proof Sets have all taken a hit and are falling in price as Silver Spot continues to drop. Mint Sets are holding strong with dealers paying at or near Bid for most.

COMMEMORATIVES: The serious hemorrhaging of the Silver Commem segment seems to have been contained, as only Norfolk issues in the AU thru MS65 decreased. Premium quality Commems are still very appealing to buyers, especially at these lower levels, and a few really eye catching examples are up for auction by Heritage in Long Beach, including a fabulous Roanoke Half, graded NGC MS67+★, and a beautiful rainbow toned 1952 Washington-Carver certified as PCGS MS67 and approved by CAC. Classic Gold Commems remain solid with visible buyers present at Bid for many in the higher Mint State grades.

TYPE: Reduced Diameter Capped Bust Quarters in MS65 are now Bid at an even $20K amidst hope that the additional $1,500 will lure these scarce specimens into the market. Circulated Type II Three Cent Silvers are in greater demand along with both Liberty Seated Halves with Arrows and Arrows & Rays. Proof Type is also upbeat, particularly in the PR64 column, with gains scored by Red & Brown Matte Lincoln Cents, Barber and Liberty Seated Dimes with Legend, in addition to an appreciable advance by Liberty Seated Halves with Motto in PR60.

GOLD: Type II $20 Libs in MS63, considered too scarce to be purely influenced by Gold Spot's volatility, are now Bid $1,000 higher at $10,500, while their Type III peers in Choice Mint State also edged mildly higher in step with Gem $20 Saints. Most generic Gold Type, however, is getting a shake down due to a Gold Spot drifting well below the $1,600 per ounce level.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a sight-seen "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be guided by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

Single copy price $5.00 Vol. L No. 21 **May 25, 2012** *...a Friday morning report on the Coin Market*

GOLD, SILVER & PLATINUM REMAIN VOLATILE
EBAY HOLDING "GOLDEN OPPORTUNITY" SALE

The Market in Depth

Precious metals continued their price declines until late last week when they reversed their descent to a positive direction. Gold fell to a $1,536 close on Wednesday, May 16 before reversing on Thursday, ending the week at $1,592, which was back in the territory it fell from the previous week. Silver bottomed out at $27.17, the same day as Gold, but has actually been in a gentle decline since its $37.14 high on February 28. Platinum's recent low was reached, again on Wednesday, May 16, at $1,432. Its price has fallen from the low $1,700s, where it was in late February. Palladium tested the high $500s on May 16, closing the day at $594. This was down from the low $700s in early March. These declines may be reflective of a higher Dollar in relation to the Euro which has been softening lately because of continued and increasing European economic woes.

On the rare coin front, Certified Coin Exchange will be launching a beta test of its new Collectors Corner *CoinSearch* technology at the Long Beach Expo, running from Thursday, May 31, through Saturday, June 2. This will enable collectors, from their smart phones and tablets, to instantly locate coins they're looking for on the bourse floor. Dealers who scrvice want lists for customers will find this system to be equally beneficial. Collectors Corner is a retail coin listing service for CCE member dealers. It is also available, for a monthly fee, to PCGS member dealers who are not on the CCE system. *CoinSearch* will also be available for dealers to use at other coin shows nationally after its Long Beach Expo launch. In the future, coins, cards, currency and stamps will be able to be listed on *CoinSearch*. The Long Beach Expo is expanding its marketing in an attempt to draw dealers from other parts of the country to the trade show. Internet trading, auctions and a recessionary environment have lowered dealer participation. Dealers have also complained about too many back-to-back coin shows taking place around the country. The 300+ table Long Beach Expo is reintroducing its sport memorabilia area and is continuing its stamp section. The next major national show taking place after the Long Beach Expo and three surrounding public auctions is the Baltimore Expo, which will be held this year Thursday, June 28 through Saturday, June 30. This will give participating dealers a three week break in between these two important national shows.

On the heels of the recent "Morgan Mania" promotion, eBay announced their "Golden Opportunity" sale, which ends May 27. This sale is valued at nearly $4 million and consists of over 600 slabs of numismatic Gold offered by six PNG dealers. A few of the many highlights include: 1802/1 $2½ Capped Bust, PCGS MS61; PCGS Genuine 1879 $4 Flowing Hair Stella; 1870-CC $20 Liberty, NGC XF45; 1915-S $50 Pan-Pac Oct, NGC/CAC MS64+ and a $20 High Relief, NGC MS65.

The Mint will begin selling a two-coin American Silver Eagle Set containing a 2012-S Reverse Proof and regular Proof beginning June 7. Sets will be sold thru July 5 with no ordering limits or max mintage. A live odometer displaying how many sets have been sold will be featured on the Mint's ordering page.

This Week's Market

CENTS THRU HALVES: Uncirculated 2012-S America The Beautiful/National Park Quarters will soon be struck with the S mintmark in clad at the San Francisco Mint and will be offered in bags and rolls to collectors. 2010-D Grand Canyon Quarters are needed at higher levels.

MERCURY DIMES: Movement within the Mercury Dime segment includes 1926 issues in MS65FB slipping lower by $10, and have now declined by 25% since last August. 1943-S Mercs in MS65 got another mild jolt of strength for a second straight week.

WALKING LIBERTY HALVES: Current Bid support for early Mint State Walkers continues on a strong, even, and steady pace, but the market dynamics to push any of these issues up just aren't there yet. Certified short-sets are being offered in Gem and better for between the spread levels.

DOLLARS: Not since early last year have generic Morgan Dollars in MS65 been so low, as these Gem cartwheels have descended to a Bid of $140. A few common-date issues in this grade, such as the 1883-O, 1886, and 1921, were spared from the sell-off effect likely due to their being quantitatively less available for bulk wholesale trades. Many Peace Dollars in VG continued in another week of descent, dropping below $25, as 1927 issues in MS64 fell slightly short of expectations during trading this week.

PROOF SETS AND MINT SETS: A few minor increases have been recorded for select Proof Sets, with no declines. 1970 Small Date Mint Sets are down, now at $55 Bid. Both segments remain strong overall.

COMMEMORATIVES: Classic Gold and Silver Commemoratives were relatively uneventful, and free from any declines. Those plentiful Robinson Halves in XF thru MS60 each added $5 to their Bids with buyers even willing to take lightly cleaned examples. Several Gold Commems in Choice thru Gem are seeing good support with visible buyers at current Bid.

TYPE: With Cent Liberty Nickels in PR64 retrieved some muscle lost earlier this year, and Barber Halves in MS63 advanced modestly to a Bid of $840. While it wasn't the most exciting week of trading for Type material, the entire segment is appearing very resilient by the fact that strong Bid support has been sustaining each and every issue, including those that already made appreciable gains in the past few weeks. Obsolete denominations in Mint State and Proof appear to be stabilizing, and many early Copper issues, be they in Circulated or in Mint State grades, may be getting ready for another move during this next round of major auction events.

GOLD: Higher Gold Spot means higher Bids this week for much of the generic Gold Type material, but it also means that market participants are, perhaps, taking future inflation and debt turmoil worries more seriously than the recession forecasts being broadcast by the main stream financial press. $3 Indian Princesses in MS65 recovered all but $350 of their hefty loss from earlier this month. Type II $20 Libs remain targeted by dealers in MS62-MS63 with a premium being paid for CAC examples.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market which already include consideration of certification costs. Bids for a sight-seen "raw" coin may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, ICG, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose Bid is represented within. CAC Leaps Another Milestone While Leading the Charge!

CAC was founded over four years ago by leading members of the numismatic community to set forth stringent standards for quality within a grade. Before CAC, prices for the solid quality coins were tethered to their lesser quality counterparts, thus holding down the market. Today, CAC is leading the charge to identify coins that fully merit the grade it was assigned. Now, advanced collectors and novices alike have an easy way to identify coins that are solid for the grade - look for the CAC sticker.

CAC continues to leap impressive milestones at breakneck speed, while giving you confidence in the value of a coin.

WEST COAST EXPO COMMENCES
LOS ANGELES AUCTIONS $6 MILLION & COUNTING

The Market in Depth

This is Long Beach week, when those dealers who travel the national coin show circuit are in Southern California for a numismatic event which has a long history – since the early 1960s. In addition to the locals, the show attracts dealers and collectors from the Eastern part of the country, as well as a few from Europe and Asia. There has been somewhat of a divide that has recently arisen between east and west coast dealers during the past few years, regarding which shows they spend their time and travel expenses on, especially when the shows are held back-to-back or even overlap. Long Beach Expo officials have been working to enhance this coin show and have retired the Santa Clara show in part to that end.

In 2014, it will be fifty years since 90 percent Silver was last used in our circulating coinage. During that period, especially during the past decade, collecting "Modern" coinage has been popularized. This has become a major collecting segment of the hobby, though one that not all dealers have recognized, or care to be a part of. Much of this trend has to do with cost, as prices for earlier coinage have climbed over the years. It's a similar trend that has left many collectors out of the market for "early" coins, and for series like Liberty Seated and Bust coinage, for example, in favor of 20th Century material, such as Buffalos, Mercs, Standing Liberty Quarters and Walkers. But to further complicate this collecting trend of Moderns, and a factor that has increased costs for collectors, are the large numbers of special issues and Commemorative coins the U.S. Mint has been producing. Too many issues have been a turnoff for some collectors, but they have also added excitement for others, in that there are examples that have become scarce and have appreciated. For some, it has added a "thrill of the chase" phenomenon, even though many of these coins can be easily found. And, of course, the grading services have been a significant stimulating influence in the market for Modern coins by producing an abundance of nearly flawless MS69 and "perfect" Mint State 70 coins. Collectors of these coins can buy the best at fairly affordable prices. Couple that grading influence with Registry Set building and coin collecting has become a "sport" that has a broad appeal. Gold is down nearly $40 from our last report, and currently sits at $1,549. Silver and Platinum are also a bit weaker with Spots of $27.77 and $1,428, levels not published since the year began.

Bonhams' sale hammered $1,079,316 with a top lot of $70,200 for a group of 40 raw Type 2 and Type 3 $20 Libs, ranging in grade from VF to BU. The highest single coin lot was an 1838 Gobrecht Dollar, No Name Restrike, for $49,140, graded PCGS PR63. Goldberg's Pre-Long Beach auction has brought in over $4.8 million so far.

This Week's Market

MERCURY DIMES: There's serenity within the Mercury Dime segment in terms of Bid swings in either direction. Merc enthusiasts await the results of a contest among Bidders for a CAC approved 1921 specimen in PCGS MS66FB and a 1927-D in NGC MS65FB, among two semi-key issues soon to fall to the gavel in Long Beach.

WALKING LIBERTY HALVES: The king of Gem Walkers, 1919-D in MS65, now Bids $125K, as contenders try to acquire one of the 14 graded at this level. Final year of issue 1947 Halves in Gem shed 13%.

DOLLARS: The market is hot for first year of issue 7 and 8 TF Morgans in MS63, as well as for 1879-S (Rev. of '78) specimens of the same grade and in MS64. However, generic cartwheels in Gem trickled lower to their Bid of last year's start at $135, while 1883-O Dollars have now dipped below $400 in MS66. Generic Peace Dollars in MS63 thru MS65 can't seem to apply enough brakes on their downhill ride either, as the effect of their abundant supply may be reversed only by a higher Silver Spot.

PROOF SETS AND MINT SETS: 1992 thru 1997 Silver Proof Sets are Bid higher this week. At least one dealer is looking to buy up a big lot of Clad Proof Sets from 1968 to 2010 and Clad State Quarter Sets from 1999 to 2010. Mint Sets are holding strong with visible buyers paying at or near Bid.

COMMEMORATIVES: Lafayette Dollars in MS63 and MS64 each regained $150, but the remainder of the Silver Commem segment isn't as upbeat. Bridgeport and Cincinnati Halves in MS66 both rolled back this week by about 5% or more, while Columbia issues in AU thru MS64 fell short of maintaining sufficient Bid support along with those popular Texas issues in MS65. All Gold Commems steered clear of obstacles, with several examples in MS63 thru MS66 still trading strongly at current Bid. Quantities of 1970 Mint Sets are needed via 5% Bid jump.

TYPE: Coppers of all sorts, from the earliest of issues to those increasingly popular Lincoln Cents, are still extremely enticing to Bidders. A 1911-D Lincoln Cent in PCGS MS66RD, for example, sold this past weekend through Teletrade for a cool $8,970. Although Mint State and Proof Type material in general has been weathering the tumultuousness of the market far better than other segments, Nickel Type has tended to lag, as Type 1 Buffalos in PR65 may demonstrate such weakness with a marginal decline, and comparably graded early Matte Proof Buffs moderately failed to please the auction crowd as well, dipping by $40.

GOLD: As Gold Spot lingers at around $1,550 per ounce with almost daily dips below that level during intraday trading, not much positive motion can be expected of any of the most bullion sensitive Gold Type issues. Some examples require an actual rise in Gold Spot just to maintain sustenance. Declines, while moderate, were predominant among common Double Eagles again this week while the MS67 column remains completely immune to the volatility.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified) but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder. But will be stopped by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

LONG BEACH PULLS OUT ALL THE STOPS
AUCTIONS COMBINE FOR NEARLY $22 MILLION

The Market in Depth

Last week's Long Beach Expo has concluded, with many participants reporting that they had an excellent show. Dealers enjoyed two extra hours of set-up time, as well as free wi-fi for exhibitors, giving them more opportunities to make deals amongst themselves before the general public was allowed in. A new feature which debuted at this show was the Collectors Corner CoinSearch mobile application. Those with a smartphone or tablet could electronically locate specific coins at dealers' booths without having to roam the bourse floor looking from table to table. Over 4,600 coins on Collectors Corner were identified as being available on the bourse from 15 participating Certified Coin Exchange dealers. A few of these dealers reported having had a customer or two find their booth through this system. In addition to collectors, dealers used this service to evaluate their competitors' inventory and pricing structure, allowing them to make live adjustments on fly. Though the Expo had its ebb and flow of activity, Thursday was a record breaker for public attendance. Gold climbed during each day of the show, from its $1,563 close on Wednesday, to its settling of $1,621 on Friday. Even though Friday saw a one day $57.90 jump in Spot, this didn't do too much for increased action that day. Such a large spike hasn't happened since September 27 of 2011 when the yellow metal rose $58.10 to $1,651 an ounce. Interestingly, a raw $50 Humbert Gold Slug that had been stashed away in a jewelry box walked into the show from Northern California and was verbally authenticated by PCGS, then bought by a veteran Southern California dealer for a price in the high five figures. A new display may become a permanent fixture at the center of the show, highlighting a diversity of rare and valuable collectibles, including a Babe Ruth exhibit, the finest known Inverted Jenny stamp, and an assortment of Shipwreck Gold material. Also on display was one of two known Rolled Edge 1907 $10 Satin Proof Indians.

Demand for CAC and Plus material continues to grow, especially the latter as such coins are worth an additional half point to the set registry players. High-end Morgan and Peace Dollars that are accurately graded and problem free remain in serious demand as well, but were tough to find on the bourse. Better date Gold, especially CAC approved, was also very much sought-after. Without a doubt, higher quality coins are in very strong hands and are often only sold as a last resort by those who need to bail themselves out of a financial crisis.

The Expo was preceded by the traditional Ira and Larry Goldberg Pre-Long Beach Sale May 27-28 in Los Angeles, which brought in over $8.2 million. Bonhams' auction hammered over $1 million May 27, and the official auction at the Expo was once again conducted by Heritage, their auction totaling over $12.6 million. The market continues on as it's been for months - there's a lack of fresh, high-end material, CAC stickered coins are bringing strong premiums, anything of substandard quality is a hard sell or is greatly discounted, and traditional collector coins have taken a back seat to modern material and bullion.

This Week's Market

CENTS THRU HALVES: Bids for a few Silver Roosevelt Dime rolls increased by nearly 20%. Clad Kennedy Half Dollars from the 2000's continue to rise as orders remain unfulfilled.

MERCURY DIMES: 1943-D Mercs in MS65FB added some more strength, as these issues posted their second moderate gain in four weeks. Buyers are still gravitating towards those Mercs that are either radiantly white or very colorfully toned, preferably with Full Bands, but with original luster.

WALKING LIBERTY HALVES: Key-date Walkers continue to lure most of the attention seen in this segment. However, premium quality late dates are still capable of realizing very strong on-line auction prices, such as the CAC approved 1943 example in NGC MS67 and the 1945-S in PCGS CAC MS66+, selling for a respective $834 and $978 this past weekend through Teletrade.

DOLLARS: Circ Dollar increases would likely be taken with greater cheer had it not been for those generic issues in Gem sinking ever lower to a Bid now at $128. Common dates in MS66 also settled back down to a Bid of $300. Of positive note is that 1879-S (Rev. of '78) cartwheels in MS63 resumed in their ascent from last week and have now gained 25% since the first of the year. 1903-O issues in MS60 are among the few others becoming moderately more alluring. Generic Peace Dollars in MS65 are now Bidding at parity with their comparably graded Morgan cohorts. 1927 Dollars in this grade, however, are in greater demand with Bid up by $200 this week.

PROOF SETS AND MINT SETS: There is at least one dealer actively looking to pick up 1964 Accented Hair Proof Sets at $35, a $12 premium over Bid. A handful of Mint Sets are showing a slight decline in Bid with buyers offering just over face value.

COMMEMORATIVES: Those important Missouri Halves in MS64 thru MS66, and their 2X4 peers in MS64 and MS65, as well as Monroe and Sesquicentennial issues in MS65, all moderately regained lost ground after getting beaten up by months of trading activity largely dominated by widespread discounting. This segment isn't out of the woods yet, as can be seen by further reductions for various other Classic Commems such as Iowa, Lincoln, and Texas. Gold Commems remain strong with buyers paying at or just shy of Bid for every issue in Choice and better including the slugs.

TYPE: Mint State Type remains relatively inactive but stable, as it has been for five weeks now. Buyers are hot for certain Circs such as select Three Cent Silvers and Liberty Seated Half Dollars. Reduced Size Capped Bust Quarters in AU dropped back down to $600, although, while most Proof issues held onto their current Bids, the exceptions being Liberty Seated Quarters with Motto in PR63 and Walking Liberty Halves in PR65, each losing $5.

GOLD: With Gold Spot once again having regained a level at above $1,600 per ounce, Bids can be expected to climb accordingly, especially for generic Double Eagles. However, Type I Indian Princess Gold Dollars in MS65 drifted back down by $300 with other Uncirculated fractionals mixed.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market, which already include consideration of certification costs. Bids for a sight-seen "raw" coin may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, ICG, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose Bid is represented within. Therefore a specific coin could be worth more or less than the listed Bid price. For listed Bid prices of coins certified by ANACS, ICG, PCGS, and NGC, please refer to *the Certified Coin Dealer newsletter*.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and 'gem' rolls often bring more. In the Jefferson series some of the rolls in the late 5¢ s tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $5.00 Vol. L No. 24 June 15, 2012 *...a Friday morning report on the Coin Market*

WHOLESALE MARKET ROBUST
PRECIOUS METAL BUYERS GUN-SHY

The Market in Depth

Wholesale dealer-to-dealer business remains solid and continues to play a major role in the coin industry. While various segments across the retail market are somewhat spotty, if anything is priced right it'll sell to another dealer on a wholesale basis providing reliable and rapid liquidity. This is true, from the most common Circulated coins, right on up through high-priced Gem material. However, wholesale levels have been adjusting into a wider divergence of pricing. Average and especially problem coins are experiencing greater discounting, while demand for premium quality material, including those bearing the green CAC sticker and/or Plus designation, has been growing with progressively higher prices paid for scarcer and more desirable pieces. Auction results have been falling into a narrowing range for some of this higher-end material, but there are always the exceptional outliers that end up selling for bargains, "when no one is looking," or they're selling much higher when the right combination of buyers Bid aggressively against each other.

It's been mid-summer during the past three years when Gold prices began climbing, right on into fall and winter, albeit with some corrections along the way. Silver followed suit during 2009 and 2010, but lagged during the same time period in 2011. Both metals, however, experienced a larger correction in September last year before trending higher from the levels they fell to. This year all eyes are on the European debt crisis, which probably has the biggest influence over the precious metals markets at this time. It's "touch and go" whether Greece will stay within the Eurozone, and the upcoming election on June 17 should shed some light on the situation. Spain is due to receive a substantial €100 billion bailout for its major banks.

After the run-up in prices during the past three years, many investors are very cautious about buying more metals at these historically high levels. This is reflected in reduced sales volumes of American Gold and Silver Eagles by the U.S. Mint which are down by around half from last year's sales. But the Mint sold about 53,000 ounces of Gold Eagles during May which is more than double the approximate 20,000 ounces it sold during April. However, May figures are way down from 107,000 ounces of Gold Eagles sold during May, 2011. So far in 2012 the Mint has sold over 283,500 ounces of Gold Eagles, which is about 45% lower than last year's sales during the same period. The U.S. Mint has begun taking orders for its 2012 American Eagle San Francisco Two-Coin Silver Proof Set, priced at $149.95 with no household limits. This Set, celebrating the San Francisco Mint's 75th anniversary consists of two American Silver Eagles, one Proof and one Reverse Proof, each bearing the S mintmark. So far, over 121,300 sets have sold, as indicated on the Mint's order page, which is updated daily, along with the July 5 deadline date for ordering prominently displayed. These changes should allow all collectors the opportunity to acquire this Set directly from the Mint without being shut out.

This Week's Market

MERCURY DIMES: Two Full Band Mercs, the 1928 and 1928-S, the former in MS65FB and the latter in MS64FB, both fell short of expectations at auction this week and their Bids were pulled down as a result by $20 and $65, respectively.

WALKING LIBERTY HALVES: 1941-S Walkers in Gem, which held at or above the $700 level for quite some time, settled lower to a Bid of $675, and comparably graded 1942-D issues slid down moderately as well, their $5 decline matched by a gain of that same amount for 1946 issues in MS64.

DOLLARS: In addition to VG and Fine examples, buyers are looking for quantities of pre-1921 XF/AU Morgan Dollars at Bid that are common dates or slightly better with clean cheeks preferred but not mandatory. 1900-O/CC Dollars in MS65 and 1904-S issues in MS64 are among the more closely watched decliners within the Morgan series. 1922-S Peace Dollars in Gem more than recovered their recent losses with a $400 advance to an even $2,000 Bid.

PROOF SETS AND MINT SETS: Proof Sets are strong overall with several dealers looking to acquire 100 or more select Sets that are increasing. Mint Sets remain strong across-the-board and are targeted at or near Bid. Buyers are looking for 1982 and 1983 "Homemade" Mint Sets at $30 and $35. Both 1970 Small Date Mint Sets and Proof Sets are lower, now at $50 and $62, respectively.

COMMEMORATIVES: Several Silver Commems, particularly in Gem, are mixed with advances and declines. Isabella Quarters in MS64 and MS65 advanced moderately this week while their peers in MS66, paradoxically, took a plunge by nearly $475, losing 11%, and a decline of 16% didn't bode well at all for those comparably graded Stone Mountain and Texas Type issues. Iowa Halves in all Mint State grades are still getting hammered. $2½ Sesquicentennials in MS64 were the only casualties among the Gold issues, dropping moderately by $10. Within Modern Commems, dealers are looking for quantities of 2011-D Army Half Dollars at $75 Bid, nearly four times the issue price.

TYPE: More weak auction results caused a significant decline of $1,000 for those rather scarce Large Size Capped Bust Dimes in MS65, and Barber Halves in Gem fell right back down to Bid at $2,400, where they were at the beginning of last year. Liberty Seated Quarters, No Motto in PR65, which haven't moved in either direction in well over a year, were forced down this week by $250, while comparably graded Barber Quarters and Walking Liberty Haves in PR64 found slightly lower ground as well. The upcoming Stack's Bowers auction in Baltimore is sure to please even the most discerning Type collector due to its offering of exceptionally high quality material representing every Type category and denomination.

GOLD: Select generic Gold Type material scored moderately higher gains from last week. Those $5 No Motto Libs in MS65 shot up by another $1,500 to remain in sync with the recently increased demand for these scarce Gems that have risen by 8% in just two weeks.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market which already include consideration of certification costs. Bids for a sight-seen "raw" coin may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium over Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

COIN MARKET STEADY OVERALL
PREPARING FOR BALTIMORE

The Market in Depth

"Normalcy" accurately describes the state of the present coin market. There is no real frenzy in any area, though supply is very tight for high-end coins, and buyers, in some cases, are clamoring to snap up particular pieces before others get them first. Prices for such material are strong to rising, while other areas of the market are somewhat spotty. Early Circulated Type continues to sell well between dealers on a wholesale basis, but retail in select areas is a bit weak. For example, Proof and Mint Sets with problems such as missing COAs, or incomplete panels, damaged boxes or envelopes, etc., are literally piled high in some dealers' inventories. Fresh, retail friendly sets are still salable with dealers paying Bid for quantities. Off-quality and marginal collector coins continue to sit, growing stale until dealers decide to blow them out at appropriate discounted prices, possibly accepting a loss. Problem-free rare coins at all price levels are selling, but some collectors are still preferring to put their money into bullion. Others are continuing to look at the coin market as a diversification from investments in stocks that they're nervous about. Several sophisticated private investor/collectors are working with skillful dealers to build high-end portfolios and collections that they hope will serve them well in the coming years.

Bullion prices have raised the excitement of both bulls and bears during the past several weeks as they've softened and then reversed toward the upside, threatening to break out into new higher levels. Those "talking heads" in the mainstream media who are experienced and knowledgeable about the real purpose of holding investments in bullion continue to be bullish for the long-term, while others say the ride is over. Gold closed at $1,622 today, ahead of the Bernanke address of the Joint Economic Committee June 21. Meanwhile, the European debt bubble and economic woes continue to escalate and are very much in the public eye, while similar problems here in the U.S. are barely being talked about. The Euro firmed and Gold softened slightly after the Greek vote last Sunday supported the pro-austerity New Democracy Party. However, a similar vote in France over the same weekend supported the anti-austerity platform of President Hollande. The London Metal Exchange, from which price quotes are frequently used by dealers in the U.S., has been sold to Hong Kong Exchanges & Clearing Ltd. for $2.2 billion. Other Bidders included the Chicago Mercantile Exchange (CME), NYSE Euronext and Intercontinental Exchange Inc. (ICE). The deal is expected to be completed toward the end of this year. Hong Kong Exchanges said it expects to keep the open-outcry trading system in place. The company made its case for the purchase by promoting its ability to boost the LME's business in China.

Dealers are already advertising pre-Baltimore mini shows set to take place in nearby hotel conference rooms. Quite often a good deal of wholesale business is done at these private gatherings. Baltimore will host its 40th year of the show June 28-July 1 with a public auction by Stack's Bowers beginning June 27.

This Week's Market

CENTS THRU HALVES: Most Memorial Lincoln BU Cent rolls from 1981 through 2007-D are needed at or near Bid as are select issues from the mid-70's and the late 60's. Several Uncirculated Franklin Half Dollar rolls are higher in spite of a stagnant Silver Spot. Select put-together Proof rolls encompassing all denominations are lower. A few State Quarter rolls are slightly higher, though overall these issues are readily available.

MERCURY DIMES: Both Philadelphia and Denver installments of the 1921 are needed in Choice and Very Choice, and higher offers are in place in hopes of shaking some loose. Aside from the key dates, the remainder of this market segment is soft.

WALKING LIBERTY HALVES: Early Walkers remain super strong with multiple buyers available for nearly all dates in Unc and better. Short-Set dates also remain in demand for those in MS64 thru MS66. A few late date Philadelphia entries are needed in AU with 20% more being offered for sliders.

DOLLARS: Morgans continue to strengthen by way of higher Bids with increased demand targeting nearly all dates in multiple grades. Deep Mirror Prooflikes got a shot in the arm as at least one dealer ups the ante on numerous specimens. Gem DMPL 1881-S Dollars are this week's leader increasing by $120 or 17% for this combined pop 537 coin. Peace Dollars are still sought at increasingly higher levels with buyers accepting quantities needed for promotions. Up to three bags of emergency issue 1999-P-D SBAs are wanted at 55% over face. Collectors still have until July 5 to purchase their 2012 American Eagle San Francisco two-coin Silver Proof Sets. Unlike in the past, the US Mint is making these sets to order having no household limits, with over 137,000 sold so far at $150 per.

PROOF SETS AND MINT SETS: One TV supplier continues to consume large sums of Proof Sets and currently needs up to 700 of each green box Set from 1994-1998. A few early Proof Sets, 1951-1955 are being offered for a discount in both boxes and capital plastic holders resulting in lower Bids. Multiple buyers are eager to acquire up to 200 1970, 1973, 1975 and 1976 Mint Sets at Bid, with small lots welcome.

COMMEMORATIVES: Silver Commems are mixed once again this week, but maintain a good deal of support for select issues in various grades at current levels. Circulated and even lightly cleaned examples continue to have a strong following with multiple buyers targeting the majority within the 50-piece Type Set at Bid. A few Gold Commems are lower and quality examples continue to sell for a discount at public auction.

TYPE: Circulated Liberty Seated Half Dollars are receiving increased attention with higher offers in place for any Type issue through grade Fine. Proof Type remains strong throughout as does Uncirculated Type with only a single minor correction recorded for '53-'55 Half Dimes with Arrows in MS64.

GOLD: Premiums are increasing for several generic Gold Type issues listed below. Many of the common Quarter Eagles through Double Eagles out-performed Gold Spot by 3:1 this week. Better Gold is also performing well with No Motto $5 Libs Bid $225 higher in MS64 and Gem $20 Libs jumping $110.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market which already include consideration of certification costs. Bids for a sight-seen "raw" coin may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE. The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

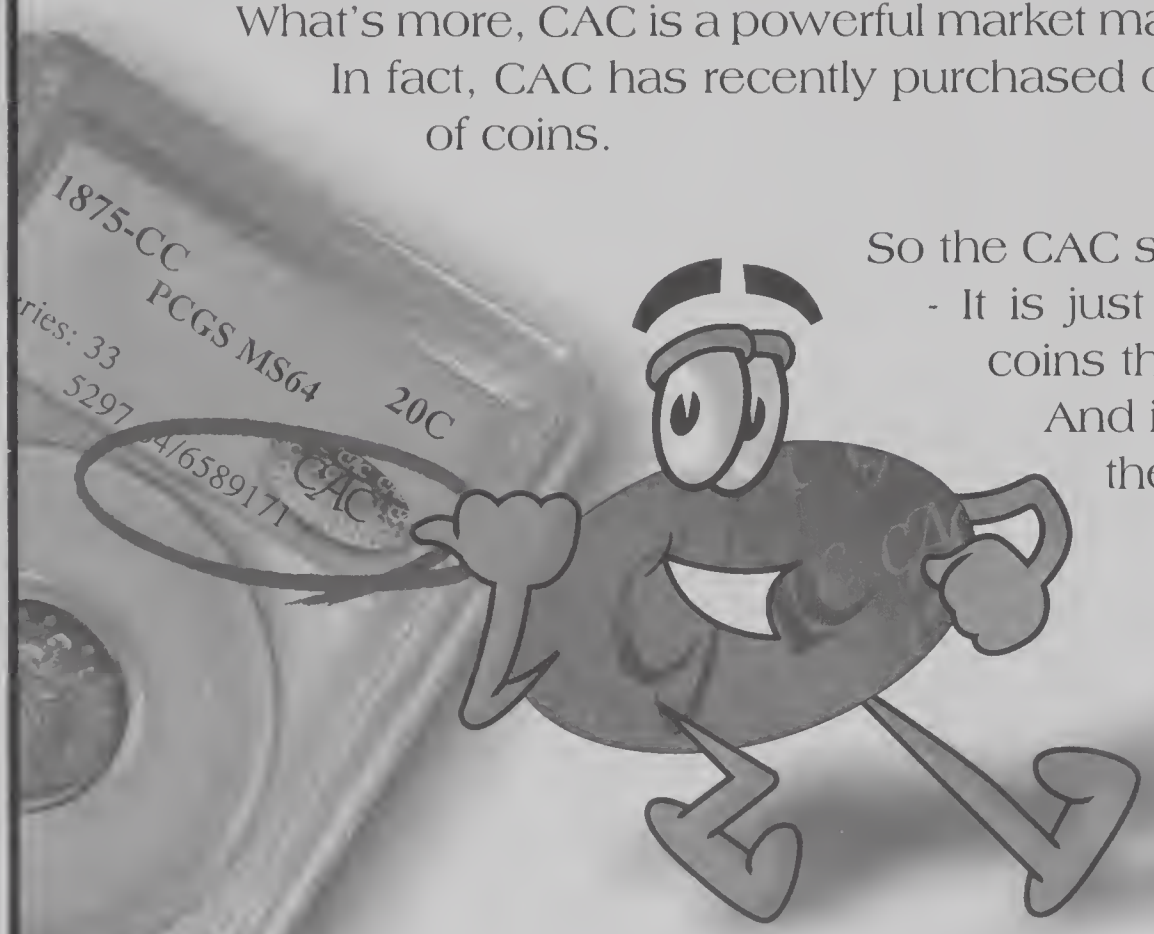
UPDATE!



CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ~~250,000~~ 350,000 coins with a market value over ~~$1.3~~ $1.7 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over ~~$200,000,000~~ $250,000,000 worth of coins.

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

The CAC sticker doesn't add value, it just helps to identify a quality coin.

BUSY SUMMER SHOW SCHEDULE
COUNTERFEITS STILL A MAJOR PROBLEM

The Market in Depth

The Baltimore Expo is on tap this week from June 28 to July 1. Even with summertime activities, it is still a very popular show, though the June expo is typically the least well-attended of the three during the year. Collector-rich Baltimore is also a great destination for families and dealers to have fun, with its Inner Harbor, baseball, museums, restaurants, etc. This show is normally very active, attracting dealers from both coasts and towns and cities in between. Collectors will be seeking premium quality, problem free material with eye appeal and pizzazz. Stack's Bowers is conducting the official Baltimore auction this week from June 27 to 29, little more than a month before the official ANA World's Fair of Money auction in Philadelphia in early August. Highlights of the Baltimore sale include the "Land of Smiles Collection of Liberty Nickels," featuring several top-of-the-pop condition rarities, as the No. 1 PCGS Registry collection in this series; a run of early pre-1916 Proof Sets, featuring Seated Liberty and Barber coinage; the final installment of the Walking Liberty Tribute Collection, which is comprised of a hoard of high grade business strikes for the short-set years, as well as proof strikes from 1936 to 1942; and rare Gold that includes a Proof 68 Ultra Cameo $4 Stella, graded by NGC, and the $20 1907 Ultra High Relief, graded PCGS Proof 69, which previously brought $2,990,000 in a November, 2005 Heritage sale. PCGS has been running a contest to "guess the price" for this coin in the Stack's Bowers Baltimore sale, awarding the winner a $20 Saint-Gaudens in MS65. The $20 1907 Ultra High Relief is currently Bid at $1.81 million so far, and nearly 900 guesses have been recorded.

The next major show is the summer FUN in Orlando, held from July 12 to 14. Once again, Heritage will be conducting the official auction. This will be the last major show held before the ANA World's Fair of Money in Philadelphia, from August 7 to 11. However, there are other smaller active shows scattered around the country, including the busy June 29-July 1 Colorado Springs coin show which is being held during the ANA's popular Summer Seminar series, going on now, from June 23 to July 6. Another very active bourse coming up is the Missouri Numismatic Society's 52nd annual show from July 26 to 28, at the Saint Charles, MO Convention Center with an auction by Scotsman. There are also other important auctions online, including a GreatCollections sale, closing on July 15, featuring for the first time by any auction company, a rare 2007-D Sacagawea Dollar error, graded MS62, and produced with the Presidential Dollar edge lettering. PCGS paid a $10,000 reward five years ago to the individual who submitted this discovery piece to them for grading.

PCGS is meeting with Congress in an attempt to warn them of the problem of counterfeit coins coming from China. This problem is increasing in terms of the number and quality of fakes coming to America, and the situation could get worse to include counterfeit rare Bank Notes. ICTA is addressing the same issue of Chinese counterfeits by working with Congress to strengthen the existing Hobby Protection Act.

This Week's Market

MERCURY DIMES: Mercs continue to be generally out of favor with today's collectors. Activity remains extremely light with only a couple Bid adjustments recorded. Gem 1925-S examples with Fully Split Bands, with a combined pop of 87, jumped 12%. In the past year, six examples have sold at retail public auction realizing from $1,840 to $2,530.

WALKING LIBERTY HALVES: All early Walkers possess numerous buyers offering current Bid. Common Dates within the short-set are a bit soft though no real discounting is taking place. Ebay is promoting a Half Dollar Highlight sale ending June 30th consisting of over 800 Halves valued at $1.5 million. Several CAC and/or Plus graded examples are included.

DOLLARS: Uncirculated Morgans are solid with visible buyers available at or near Bid for just about every date and mintmark. Peace Dollars are quite healthy overall with Bidders targeting MS64 generics, and are now paying $48 for problem-free examples that are white or whitish. Silver Ikes have dropped in response to lower wholesale Asking prices, likely due to a weaker Silver Spot.

PROOF SETS AND MINT SETS: Both Silver Proof Sets and Silver Quarter Proof Sets are lower this week with the precious white metal hanging around $27 an ounce. A dealer is looking to pick up 200 1976 3-Piece Silver Proof Sets at $24 to fill a hole in inventory. Mint Sets are strong with just two showing a negative sign: 1970 Small Date and 1976 3-Piece Silver Sets.

COMMEMORATIVES: The clouds may be beginning to part as fewer declines are seen for Classic Silver Commems, though higher Bids remain absent. Pinnacle Rarities announced their recent acquisition (for an undisclosed amount) of the Bruce Scher Commemorative 144 piece set which is ranked as the all-time finest set in the PCGS registry. Gold Commems are mixed with a single decline and advance. Things could get worse as many of the supporting Bids here have all but vanished. The majority of modifications within Modern Commems are directly tied to the downward movement in bullion. Over 157K of the 2012 American Silver Eagle 2-Piece San Francisco Proof Sets have sold thus far, with limitless sales set to terminate July 5.

TYPE: Bids for Liberty Seated Dimes with Legend have been reduced by $25 to $1,225. A CAC approved example of an 1885 graded PR65 Cameo sold last week in a retail auction for $1,275. Within Uncirculated Type, with Cent Liberty Nickels are 3% higher in MS64, this being the only change here. Circulated 1793 Wreath Cents are highly desired by collectors and are being pursued at higher levels in Good through Very Fine with Bid increases by as much as 30%.

GOLD: Aside from common date Double Eagles dropping, the remainder of the Gold Type below is mostly higher. This positive activity is taking place in spite of Gold Spot losing $48 an ounce from our last report. A handful of issues are performing extremely well including Type III Gold Dollars increasing 10% in MS63, and $2½ Libs jumping by 7% in MS62.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium over Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $5.00 Vol. L No. 27 July 6, 2012 *. . .a Friday morning report on the Coin Market*

HEALTHY BALTIMORE COMPLETED
UHR $20 SAINT BRINGS $2.76 MILLION

The Market in Depth

News was made as the highly-touted, PCGS graded, Proof-69 1907 Ultra High Relief $20 brought $2,760,000 at the Baltimore Stack's Bowers auction. This price was less than many had guessed, especially in the PCGS sponsored "guess the price" contest, which was designed to inspire message board "lurkers" to participate, and the winner of which guessed the exact amount on his first post and won a Gem $20 Saint. While this virtually perfect Ultra High Relief is a very special coin, being the finest known, it is also very similar to regular High Relief $20 Saints which are easily found on the market at any given time. Another noteworthy coin that sold in Baltimore was a $4 Flowing Hair Stella graded NGC PR68 UCam hammering for $402,500. Be assured that big money is ready to compete and pounce when the right seven-, and possibly eight-figure coins come onto the market. But aside from these amazing coins, and the market showing strength in Baltimore, it was not red hot. Again, buyers for high-end coins are selective, and fresh material meeting their standards is scarce – they're already holding much of it. In other words, these kinds of coins are in strong hands that are holding in expectations of the next bull market cycle. Right now, this is where a lot of the action is taking place in today's coin market.

Bullion woke up for a brief time last week, with Gold once again crossing above the $1,600 level on Friday, jumping $54 and likely boosting the mood of buyers and sellers of coins at the Baltimore Expo. However, potential retail customers in this area who've shown at least some interest in buying precious metals at some point in time are still, for the most part, hum-drum about making new purchases. They still want to see some action on the upside before they buy, or even a serious financial calamity here at home before making new purchases. Of course, that's when they'll probably end up paying higher prices. After detecting an increase in counterfeits, to more than 5,500 during the last 12 months, PCGS is taking its frustration with Chinese counterfeits to Congress. Representatives of PCGS and the hobby were scheduled to meet last week with Congressman Lamar Smith (R, Texas), Chairman of the House Committee on Judiciary, who introduced legislation (H.R. 5977) on June 20 to extend provisions of the Hobby Protection Act to make it unlawful to assist or support anyone who violates the Act.

Another successful Baltimore Expo has come and gone and now it's on to the sixth annual Summer FUN show in Orlando, Florida, July 12-14, with an auction by Heritage. Then it will be time for the year's most significant show, convention and auction - the ANA's World's Fair of Money in Philadelphia, August 7-11, preceded by an ANA/PNG Pre-Show August 4-6 in the same location. Stack's Bowers is the official auctioneer for this numismatic gala, while Heritage will conduct a sale prior to the convention.

This Week's Market

CENTS THRU HALVES: Uncirculated Kennedy Half Dollars continue to be the target of heightened demand, especially for the latter, non-circulating dates. Proof Sets are being broken up in order to facilitate sales resulting in select rolls being offered for a discount.

MERCURY DIMES: Those 1921 and 1921-D Mercs in MS63 and MS64 are moderately on the rise again as they were two weeks ago, and 1925-S issues in MS65FB pegged on another $100 to their gain of last week to recover all but $50 of their Bid from the start of the year.

WALKING LIBERTY HALVES: Renewed interest for the most common late-date Walkers in MS63 has pushed these issues up just slightly. Only a single decline is present in the Gem column as the 1943 dropped by 5% to $110. Current Bid support persists for most early key and semi-key issues in Mint State.

DOLLARS: Virtually all Morgan Dollars, even in Circulated grades, remain resilient and continue to hold onto their current levels despite the recent noteworthy drop in Silver Spot. Generic Morgans in MS63 are even adding a bit more muscle this week along with several Peace Dollars in VG, which are offsetting their prior week's declines to regain the $27 Bid level. A third consecutive week of mildly upward movement has been recorded for the most common Peace Dollars in MS64. Gem 1922-S Dollars continue to attract more attention with a resultant $550 gain over just a four week period.

PROOF SETS AND MINT SETS: There is still a dealer looking to acquire 700 each of the green Proof Sets from 1994 thru 1998. 2008 Clad Quarter Proof Sets along with 2010 Clad Proof Sets are needed by way of higher Bids. 1970 Mint Sets are 10% higher with visible buyers available for the majority of the remaining Sets at or near Bid.

COMMEMORATIVES: Bids for most of the Silver Commems remain in position this week, though there is still noticeable softening within this segment. Buyers for many issues in VF thru AU remain in place with lightly cleaned examples acceptable. 1936-D San Diego Halves in MS66 are down to Bid $200, and 1917 McKinley Dollars in MS65, the only mover among the Gold issues, dropped by $50.

TYPE: The fascination with early Copper persists as market participants are competitively Bidding up those Wreath Cents in XF and AU, resulting in a rise of 14% for these rarities in the latter grade. Circulated Twenty Cent Pieces in all but AU grades are also on the hot list this week, but their peers in Gem fell short on sustaining that long held prior Bid of $4,000 and are now $200 less. Liberty Seated Dimes with Legend in PR60, however, advanced impressively with a 23% gain of $50.

GOLD: It would be hard to conclude that softness remains here, judging from the proliferation of plus signs scattered about. Minor denominations are continuing to perform extremely well as of late with increases as large as 10% recorded for Choice $2½ Libs and 5% for common Gold Dollars in the same grade.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market, which already include consideration of certification costs. Bids for a sight-seen "raw" coin may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late [illegible]s tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "[illegible] together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

Buying or Selling Certified Coins?

If you answered yes, then you need to subscribe to the Certified Coin Dealer Newsletter — immediately. The CCDN, or ***Bluesheet,*** is the only publication that reports the buying (Bid) and selling (Market) prices of third-party graded coins. You need to know the dramatic differences in prices for each of the major grading services if you want to successfully buy or sell in today's market. The actual money you save from making informed buying and selling decisions can often pay for the cost of a subscription many times over. Subscribe today for at least 6 months and receive a free copy of the 2012 Numismatic Dealer Directory — over 140 pages including: coin dealers, auction houses, supplies, shows and much more.

CAC Leaps Another Milestone While Leading the Charge!

CAC was founded over four years ago by leading members of the numismatic community to set forth stringent standards for quality within a grade. Before CAC, prices for the solid quality coins were tethered to their lesser quality counterparts, thus holding down the market. Today, CAC is leading the charge to identify coins that fully merit the grade it was assigned. Now, advanced collectors and novices alike have an easy way to identify coins that are solid for the grade - look for the CAC sticker.

CAC continues to leap impressive milestones at breakneck speed, while giving you confidence in the value of a coin.

Single copy price $5.00 Vol. L No. 28 **July 13, 2012** *. . .a Friday morning report on the Coin Market*

SUMMER F.U.N. BEGINS
COUNTERFEIT BATTLE CONTINUES

The Market in Depth

After a long holiday week, with Independence Day falling on a Wednesday, it's back to work for dealers, many of whom are in Orlando for the 6th annual Summer FUN convention. This coin show, which is traditionally smaller than the major January FUN event, is held just across the street from where that show takes place – but both are at the Orange County Convention Center facilities on International Drive. The summer FUN convention will be open from Thursday through Saturday, July 12-14, with an auction by Heritage on the same dates, which extends online into July 15. The coin market continues to be in a stable mode, but areas of active trading are spotty, with one major area experiencing a slowdown from heightened demand during the past couple of years - bullion related products. High-end coins continue to capture the bulk of buying and selling action, as well as problem-free, original material with some level of scarcity and an interesting provenance. Lower-grade Mint State and Circulated classic coins are experiencing somewhat slower market activity because sales here primarily rely on established collectors who have solid incomes in this recessionary environment. Off-quality coins continue to suffer and remain in dealers' inventories for lengthy time periods, often selling at losses. Similarly, a great example of what falling premiums have done to the generic Gold coin market, was spotted this past week on one of the dealer trading networks in which one major coin company ran the following message: "Offering to sell up to 200 NGC MS63 $20 Saint-Gaudens @ $1,720 each. This is the same price as an uncertified AU coin on our spreadsheet! If you need them raw then we'll even break them out for you."

The FBI is asking dealers to notify them if solicited to purchase a list of customer data as an individual hacked into the records of a coin and bullion company, stealing thousands of customer orders and information. Counterfeit coins and fake grading service holders continue to plague the industry. To help combat this serious problem, dealers and collectors are urged to personally contact their Congressional Representatives at this time to support HR5977; a bill designed to strengthen the Hobby Protection Act of 1973, and amended in 1988. The primary concern at this time is on Chinese counterfeiting of brand name products that duplicate "virtually anything manufactured in America, including U.S. Government issued coins," according to a statement by PCGS. In that statement, Don Willis, President of PCGS added, "Even worse, Customs and the U.S. Government do little to stop counterfeits from entering the U.S. Once in the U.S. little effort is made to arrest and prosecute individuals selling counterfeit material. Consequently the U.S. has been flooded with counterfeit products."

Beginning August 7 and running through August 11 is the much anticipated American Numismatic Association's World's Fair of Money. With a huge bourse, museum showcase, and educational programs, visitors will have much to keep them busy at this numismatic gala in Philadelphia. Stack's Bowers is the official auction company of the fair. The ANA/PNG will have a semi-private pre-show in the same location August 4-6.

This Week's Market

MERCURY DIMES: Retail buyers remain far from squeamish when it comes to paying premiums for well struck, Mint State Mercs with Full-Bands. Circulated key dates with wear that is even and does not detract too much from the coin's legibility are equally popular.

WALKING LIBERTY HALVES: There was minimal movement within the Walker segment, as 1940-S Walkers in AU edged up by just $1. Competitive Bidding continues for a 1917-S (Obv.) at Heritage's Summer FUN auction. This specimen, graded MS65 by NGC, is one of just 63 graded as such by either service with only five finer. The U.S. Mint reported selling just over 250,000 of the special 2012 San Francisco issued two-coin American Silver Eagle Proof Sets featuring this iconic design. Some dealers are paying a $25 bounty over issue price per to secure sealed boxes to be received within the first 25 days of the Mint's initial delivery.

DOLLARS: While all but the scarcest dates of Morgan Dollars in VG slid moderately in reaction to a lower Silver Spot, Bids for several in AU were elevated by the same amount as market-makers place orders for these issues in quantities. 1883-S cartwheels in both MS63 and MS65 were among the few better-date issues to post moderate gains, as those truly rare examples in the latter grade are now Bid $500 more. In conjunction with the pullback for Peace Dollars in the VG column, generic issues in MS65 retreated back to Bid $125, a level not seen since early last year, and their peers in MS66 are in a second straight week of descent.

PROOF SETS AND MINT SETS: Active buyers remain visible for the majority of Clad Proof Sets, though Bids for Silver 1976 3-Piece, 1999, and 2009 Quarter Sets are all lower. 1996 Mint Sets are at $10.50 this week with a couple of dealers wanting to buy 100 or more of the 1996 "W" Dime for $7.50 in the cello pack.

COMMEMORATIVES: Classic Commems are quiet in this report, though Lafayette Dollars, 1926-S Oregon Halves, 1937 Texas PDS Sets, and Vermont issues in MS63 thru MS66 remain among the most attractive to market participants. Modern Silver Commems are mostly stable with buyers willing to take 10 of each dated post-1990 at 10% back.

TYPE: Twenty Cent Pieces in Gem are still teetering, losing $100 to settle at a Bid now reduced by 8% over a two week period, and some Barber material in Good-VG is looking somewhat shaky as well. Heraldic Eagle Bust Half Dollars in VG-Fine, however, are being lured into the market with slightly higher Bids. Proof material remains unchanged.

GOLD: Circulated $2½ Indians and several other generic fractional issues, especially in Mint State, continue to rise despite another pullback by Gold Spot to well below the $1,600 per ounce level. A dip in Gold almost always has a negative impact on generic Double Eagles, but Type III $20 Libs in MS65 are gaining for the sixth straight week, having bolstered their Bid by 11% since early June.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

FRACTIONAL GOLD HEATS UP
ORLANDO AUCTION HAMMERS $9.3 MILLION

The Market in Depth

The summer FUN coin show and convention concluded last weekend in Orlando as a busy bourse demonstrated market strength. Heritage garnered $9.3 million in their auction with the highest selling lot being an 1893-S Morgan Dollar graded MS60 by PCGS, fetching $103,600 — a pop 2 coin with 33 finer. A healthy number of collectors attended the FUN show, providing good business to dealers handling appealing coins. Bullion related items also traded well. Several dealers reported having an excellent show selling a wide range of material, including small denomination Gold which is particularly hot as of late. Less obvious, except in the auction, is the underlying market support from more financially well-heeled collector/investors. Those buyers, and their representatives, are looking for very high-grade scarce to rare coins which continue to be bought up when they appear on the market. Many of these better coins are Plus graded by PCGS or NGC and/or have the "green bean" CAC sticker affixed to their holders. Such coins often trade at a premium to the *Greysheet* which represents wholesale dealer-to-dealer Bids for solidly graded coins that are problem free. Coins of superior quality, often approaching standards of the next higher grade level sell for more, especially in retail venues like public auctions. Prices are freely negotiated between buyers and sellers who consider attributes of individual high-end coins, including eye appeal, luster, toning, strike, contact marks and the like. Obviously "beauty is in the eye of the beholder" and some of these attributes may appeal to some buyers, but not others.

This week some dealers and collectors are traveling west from Orlando to Las Vegas for the PCGS Members Only "trade 'n grade" show from July 18 to 21. From here the numismatic fraternity will head east towards America's heartland where the Missouri Numismatic Society will hold their 52nd annual coin show July 26-28 in Saint Louis at the Saint Charles Convention Center. Sctosman will hold a 1,000+ lot auction in conjunction with the show July 27. Next is the ANA's Philadelphia World's Fair of Money and pre-show August 4 to 11. Stack's Bowers is conducting the official ANA auction this year, while Heritage is holding its own private sale in downtown Philadelphia beginning August 2, preceding the pre-ANA/PNG show. This year's major ANA bourse will be 5,000 square feet larger than last year's record setting event – at a whopping 225,000 square feet in downtown Philadelphia at the Pennsylvania Convention Center.

During last year's ANA event in Chicago, bullion prices rocketed north, raising market enthusiasm at the show; and during August 2011, Gold hit an intraday record high price of more than $1,900 an ounce. Recently Gold has been bouncing above and below the $1,600 level, showing strength last week, but that's reportedly due to traders covering short positions rather than buyers taking new long positions. Silver prices continue to be soft, fluctuating in the high twenties, while Platinum remains below Gold by nearly $170 an ounce.

This Week's Market

CENTS THRU HALVES: Select Washington and Kennedy Clad Proof rolls are lower. Uncirculated Halves remain strong with active buyers paying a minimum of 25% over face. Demand for Non-Circulating Halves is even stronger with buyers paying 100% or more over face.

MERCURY DIMES: Uncirculated Mercs are steady and quiet at the moment. Proof examples are needed at both ends of the scale, in grades PR60 and PR65.

WALKING LIBERTY HALVES: Late-date Walkers remain popular as 1942 examples in MS64 are pushing for higher ground at $95 Bid and 1943 issues in MS65 surpassed their Bid from two weeks ago. Early dates remain super strong in all grades.

DOLLARS: The positive activity for Morgan Dollars is maintaining momentum and most of the action is concentrated among generic issues in MS65, along with a few better-dates in this grade advancing as well. The difference between Bids for PCGS and NGC is growing with dealers paying up to $130 for Gem PCGS white cartwheels while selling NGC examples for $118. Demand for DMPL Dollars pushed several moderately higher. Generic Peace Dollars in MS64 also evened out the numbers, rising back up to Bid $50 again for the first time since mid-March while MS66 examples continue to fall. GreatCollections sold the 2007-D $1 Sacagawea with Presidential Edge Lettering, for $17,161.

PROOF SETS AND MINT SETS: At least one dealer is hot for 1976 3-Piece Proof Sets and has raised Bid $1.50 to get them. There is a buyer looking to stock up on "Homemade" 1982 and 1983 Mint Sets in cello flat packs and is paying $30 and $35, respectively.

COMMEMORATIVES: Silver Commem trading has let up to the extent of rendering this segment totally inactive again this week in terms of altering any Bids. Overall support at current levels remains spotty. One of only 16 New Rochelle Halves graded MS67PL fetched $5,175 with CAC approval during Heritage's auction in Orlando. Pan-Pac Gold Dollars in MS64 slid back down by $25 but are still in positive territory for the year.

TYPE: There's ample enthusiasm in the Type segment this week as 1793 Chain and Wreath Cents in XF are being aggressively pursued by market-makers who are now Bidding 61% more for the latter issues and nearly 53% more for their peers in AU since the year began. Trading activity also allowed impressive gains for 1854-1855 Liberty Seated Quarters With Arrows in MS60 and MS64, 1873-1874 examples throughout all the Mint State columns, Capped Bust Reeded Edge Halves in MS60 and MS63, and Small Eagle variety Draped Bust Dollars in XF. All Proof material remains firmly in place, as many issues sustained themselves through good support at current Bid.

GOLD: Generic $2½ Libs and Indians in multiple grades, both Circulated and Mint State, have enjoyed a period of modest and incremental gains over the past six weeks, dodging the effects of Gold Spot's rather lackluster concurring performance. Common Gold Dollars in Choice are also strong, increasing by 10% this week alone. Type III $20 Libs in MS65 are still undaunted by the conditions that are posing downward pressure for virtually all other issues of this denomination, as are $20 Saints in MS67, which gained $300.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $5.00 Vol. L No. 30 **July 27, 2012** *. . .a Friday morning report on the Coin Market*

HIGH-END MATERIAL HOT, SECOND TIER NOT
PHILLY PRE-SHOW AUCTION UP NEXT

The Market in Depth

Last week's PCGS Members Only show demonstrated continued strength in the market for better, high grade coins – not just for ultra rarities. However, a sight-unseen deal for a million dollar plus PCGS/CAC pre-1800 coin was reported. Some dealers are reporting that many high-end, rare U.S. coins have been selling to buyers from outside the country who believe that this material is a good long-term buy and is liquid. While demand is strong for such rarities, supply is scarce because what exists is largely being held for the long-haul by investor/collectors with strong hands and deep pockets. On the flip side, there are many scarce and rare coins floating around the market that have marginal grades, and/or no longer possess original surfaces, possibly doctored and encapsulated some time ago. Some of these coins are passing from dealer to dealer, but are also eventually ending up with unwitting collectors. More and more of these buyers are demanding CAC verified and or + graded slabs, just for that reason. There are also some very nice scarce to rare coins being sold to shop dealers who don't have the connections to sell them into the higher end market and don't know what to do with them. Some of these coins are slabbed by third-party services that don't have the market acceptability of PCGS/NGC, so they are difficult sellers. Owners of this material are reluctant to take a chance on cracking them out and submitting them to NGC or PCGS to make them more marketable, for fear they may be downgraded, and therefore worth less than they are presently perceived. In reality, these coins often only sell to knowledgeable buyers for big discounts while they remain in the off-brand holders.

Many numismatists like to compare the ultra rarities end of the coin market to the fine art market. Parallels can be drawn between the two; the most obvious is in price comparisons. However, one important trend that is being reported in the art market has also been observed by coin dealers who buy, sell and broker the best-of-the-best rarities. While top-of-the-market numismatic rarities and fine paintings continue to sell for higher prices, the second-tier coins and paintings are more difficult sellers. The market has been narrowing for the lesser quality rare coins. Heritage will hold a pre-ANA auction August 2-5 in Philadelphia. We have listed several of the many highlights herein. The ANA World's Fair of Money takes place August 4-11 with the official auction to be conducted by Stack's Bowers.

This Week's Market

MERCURY DIMES: Some early semi-key Mercs were stirred up this week as 1920, 1924, and especially 1926 issues, all in MS65FB, incurred considerable losses. Those scarcer 1921 and 1921-D Mercs in MS63 and MS64 are again being Bid up moderately higher.

WALKING LIBERTY HALVES: Trading volume for Walkers was light again this week, but 1936-D and 1942-D issues in Gem each sagged just a bit to lose $5 while comparably graded 1943-S issues were discounted down by $20. 1942-S Walkers in MS64 advanced for another straight week to attain an even Bid at $100.

DOLLARS: It was largely a Silver Spot sensitivity condition that forced declines within the Morgan Dollar segment, as most of the negativity was contained within the VG column. Among the exceptions in the higher grades were some generic issues in MS66, and the 1878-CC in MS65, missing its previous Bid support by $35. Most better-date cartwheels appear in firm position while some did more than just maintain Bid, as 1893-O and 1894-O issues in MS60 achieved more forward thrust, and 1904-S Dollars in MS63 are now Bidding at a level constituting a gain of 8% for the year. Expectations that Gem graded generic Peace Dollars will soon forge further ahead were dashed by their reverting to Bids of $120 and $475 in MS65 and MS66, respectively.

PROOF SETS AND MINT SETS: Bids for 1992 thru 1995 and 1997 Silver Proof Sets are decreasing while key 1999 Silver Proof Sets are Bid 5% higher. Dealers are looking to buy quantities of the 1964 Accented Hair Kennedy Proof Sets at $50. Mint Sets are looking strong with buyers at or near Bid for each set

COMMEMORATIVES: A couple Silver Commems realized minimal gains but, overall, the consequences of their relative abundance may evoke yet more consternation for many participants who are holding material pertaining to this segment. Albany, Bay Bridge, and Elgin issues are sinking significantly lower in both MS65 and MS66, and those often highly regarded Pan-Pac Halves of the latter grade are down by $600 for the year, for a cumulative decline of 17%. 1903 Jefferson Gold Dollars in MS65 moved $100 lower.

TYPE: Last week's heightened demand for Wreath Cents in VF thru AU gave impetus to their peers in MS60, resulting in an additional $2,500 hike in Bid for these elusive and highly prized issues which have now risen by 33% this year. Market participants are unhesitatingly offering current Bid for Wreath Cents in all Circulated grades as well. But some Type issues aren't as recession-proof, as Liberty Seated Quarters with Motto in MS64 and MS65 are demonstrating, since those of the latter grade are now down by 8% since January, while Barber Quarters in MS64 are having a bit of difficulty remaining above that $500 level.

GOLD: Bidders remain undaunted by this suppressed Gold Spot market, at least insofar as their pursuing those common Gold Dollars in MS62 thru MS64 and Circulated Quarter Eagles. $3 Indian Princesses in MS63 are up by another $100, as they were last week.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally: they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

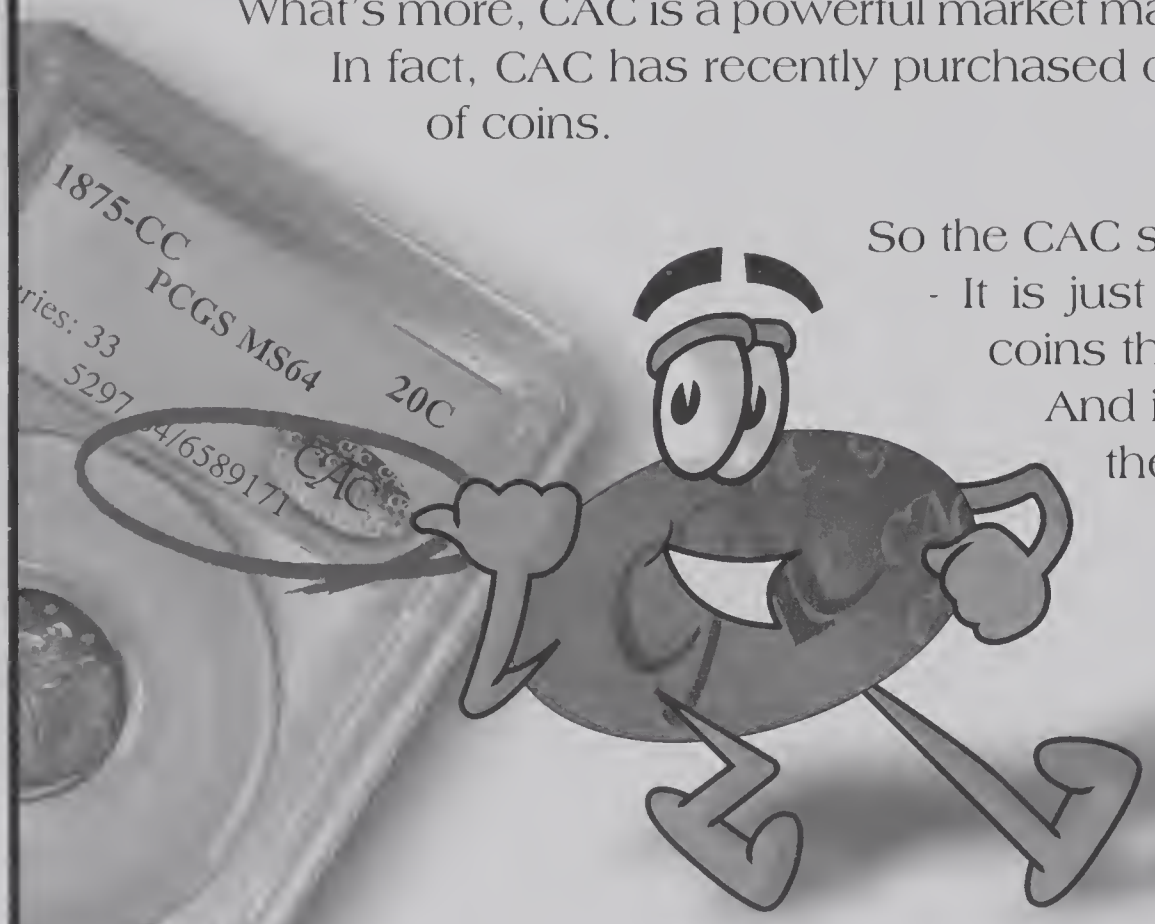
UPDATE!



CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ~~250,000~~ 350,000 coins with a market value over ~~$1.3~~ $1.7 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over ~~$200,000,000~~ $250,000,000 worth of coins.

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

The CAC sticker doesn't add value, it just helps to identify a quality coin.

WORLD'S FAIR OF MONEY EVENTS KICK OFF
METALS SURGE ON STIMULUS CONCERNS

The Market in Depth

Dealers have returned from the Missouri Numismatic Society's 52nd annual coin show with an auction from Scotsman July 27. This sale totaled nearly $1.6 million, including the buyer's premium of 15%. A few highlights include an 1856 Flying Eagle Cent, graded PCGS PR64, selling for $21,850; an 1885 $1 Indian Princess, graded PCGS PR66Cam went for $17,250; an 1898 $5 Liberty NGC PR65★ UCam brought in $34,213; an 1898 $10 Liberty graded NGC PR66★ UCam took in $55,775; and the top lot 1898 $20 Liberty, NGC PR64 UCam found a new owner for $56,350.

The much anticipated ANA World's Fair of Money events kick off this week in Philadelphia. Giving the market a boost with much fanfare and publicity is the official ANA/PNG Pre-Show for dealers only, running this coming weekend, from Saturday, August 4 through Monday, August 6; an official Pre-Show auction by Stack's Bowers Galleries on Saturday; and a major Signature Floor Auction by Heritage on Thursday and Friday. The official ANA World's Fair of Money auction, conducted by Stack's Bowers will be held August 7-10, with a Rarities Night conducted on Thursday August 9. PNG members and dealers with tables at the Pre-Show are able to have their invited guests attend. The ANA has teamed up with the PNG to run a longer Pre-Show than just the one day traditional "PNG Day" of the past.

Overall, the coin market is sound, with an emphasis on higher-end material being in an aggressive market state. Premium prices are paid for such top rare coins because they are usually + graded and/or CAC stickered, and are perceived as being higher than average quality for the assigned grade. Nice, average coins, that are easily found in the market are selling, but are more sensitive to price points because they're so commonly available. Problem coins that are overly dipped and washed out looking, have artificial or grungy toning, excessive marks or spots, etc., are sitting unwanted in dealers' inventories, destined to be blown out for discounted prices. A growing trend is to resubmit and actually have some of these coins downgraded by the third-party certification services to end up with solid or quality coins that sell for premium prices for their new lower grades, just to clear this material out. Inventory laggards also include coins graded by off-brand grading services that are not as easily marketable as are those graded by PCGS and NGC.

Adding to trading excitement for the Philadelphia events is a surge in precious metal prices due to anticipation of Fed stimulus to try to boost the economy and fix stagnant high unemployment. Last week, Gold once again moved solidly above the $1,600 mark, well into the $1,620s. Silver followed suit by heading higher to break the $28 barrier earlier this week. Platinum has been riding its roller coaster trend and crossed back above $1,400 earlier this week, while Palladium still lags well below the $600 benchmark.

This Week's Market

CENTS THRU HALVES: The sell-off continues with select rolls from virtually all segments still being discounted. Late date Unc Kennedy Halves are one of the only areas still strong with buyers available at Bid. The first two 2012 Uncirculated S-Mint National Park Quarters are live at $14 a roll.

MERCURY DIMES: A 5% advance is seeking Choice 1919 issues in addition to a moderate bump in MS64. Buyers will pay $36 and $110 for any certified Merc in MS66FB and MS67FB.

WALKING LIBERTY HALVES: Early Walkers continue on path insofar as market participants are maintaining their current Bid support. Late date Walkers are a bit lower in Gem.

DOLLARS: Morgan Dollars adjusted back up in VG to reclaim their positions from two weeks prior due to a Silver Spot some 4% higher from last week. Common early S-Mint Dollars in MS66 continued in their descent for a second straight week while MS67 examples are lower at an even $600. Although 1893 Dollars in AU lost some appeal to the extent of a 10% reduction, two popular late-dates in MS64, the 1896-S and 1898-S, are Bidding 5% and 6% higher, respectively. Two not so common Peace Dollars, the 1923-D and 1926-D, both in MS65, each fell from their prior Bid levels. The summer doldrums persist for generic issues in MS66 as they are now in a fifth straight week of decline with a cumulative loss of 16% since the end of June.

PROOF SETS AND MINT SETS: There is at least one dealer looking to buy up to 500 2008-S Clad Quarter Proof Sets and has raised Bid $2 more to get them. A few of the older Proof Sets from 1951 thru 1955 are a bit lower. 1970 Mint Sets are now Bid $12 and buyers are paying $8.50 just for the Denver minted Half Dollar which only came in these sets.

COMMEMORATIVES: Silver Commems are sitting tight for now, after last week's distressing and turbulent trading activities that caused so many to sink deeper into the red for the year. Bidders remain cautious to not over-extend themselves due to the uncertainty as to the direction of this segment's next move. 1903 McKinley Gold Dollars in MS66 slipped lower for the second time this year and are now 10% less since January.

TYPE: Liberty Seated Quarters with Motto in MS65 partially recovered some of their losses but not quite enough to get back over that $1,500 level. Three Cent Silvers, Type III in PR63 thru PR65 are still in relative short supply and are sought-after at $40 to $50 higher, depending on grade.

GOLD: Gold Spot's $35 per ounce jump since last week boded well for a multiplicity of Gold Type issues - both fractional and Double Eagles. Common $20 Libs and Saints are higher in all grades by as much as $45. Type III Gold Dollars and $5 Libs with Motto are 4% higher in Very Choice as Circulated $2½ Libs and Indians continue to fare well along with $3 Indian Princesses in MS63.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally, they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.
